

Paris: Beyond the Illusion of la Cité de l'Amour

Cristina Rosa Quero

Introduction

Aim of the project:

- Farewell to Paris
- Get to know the city like a local

Sources: data.gouv.fr, data.iledefrance.fr, open-meteo.com, insideairbnb.com, openstreetmap.org

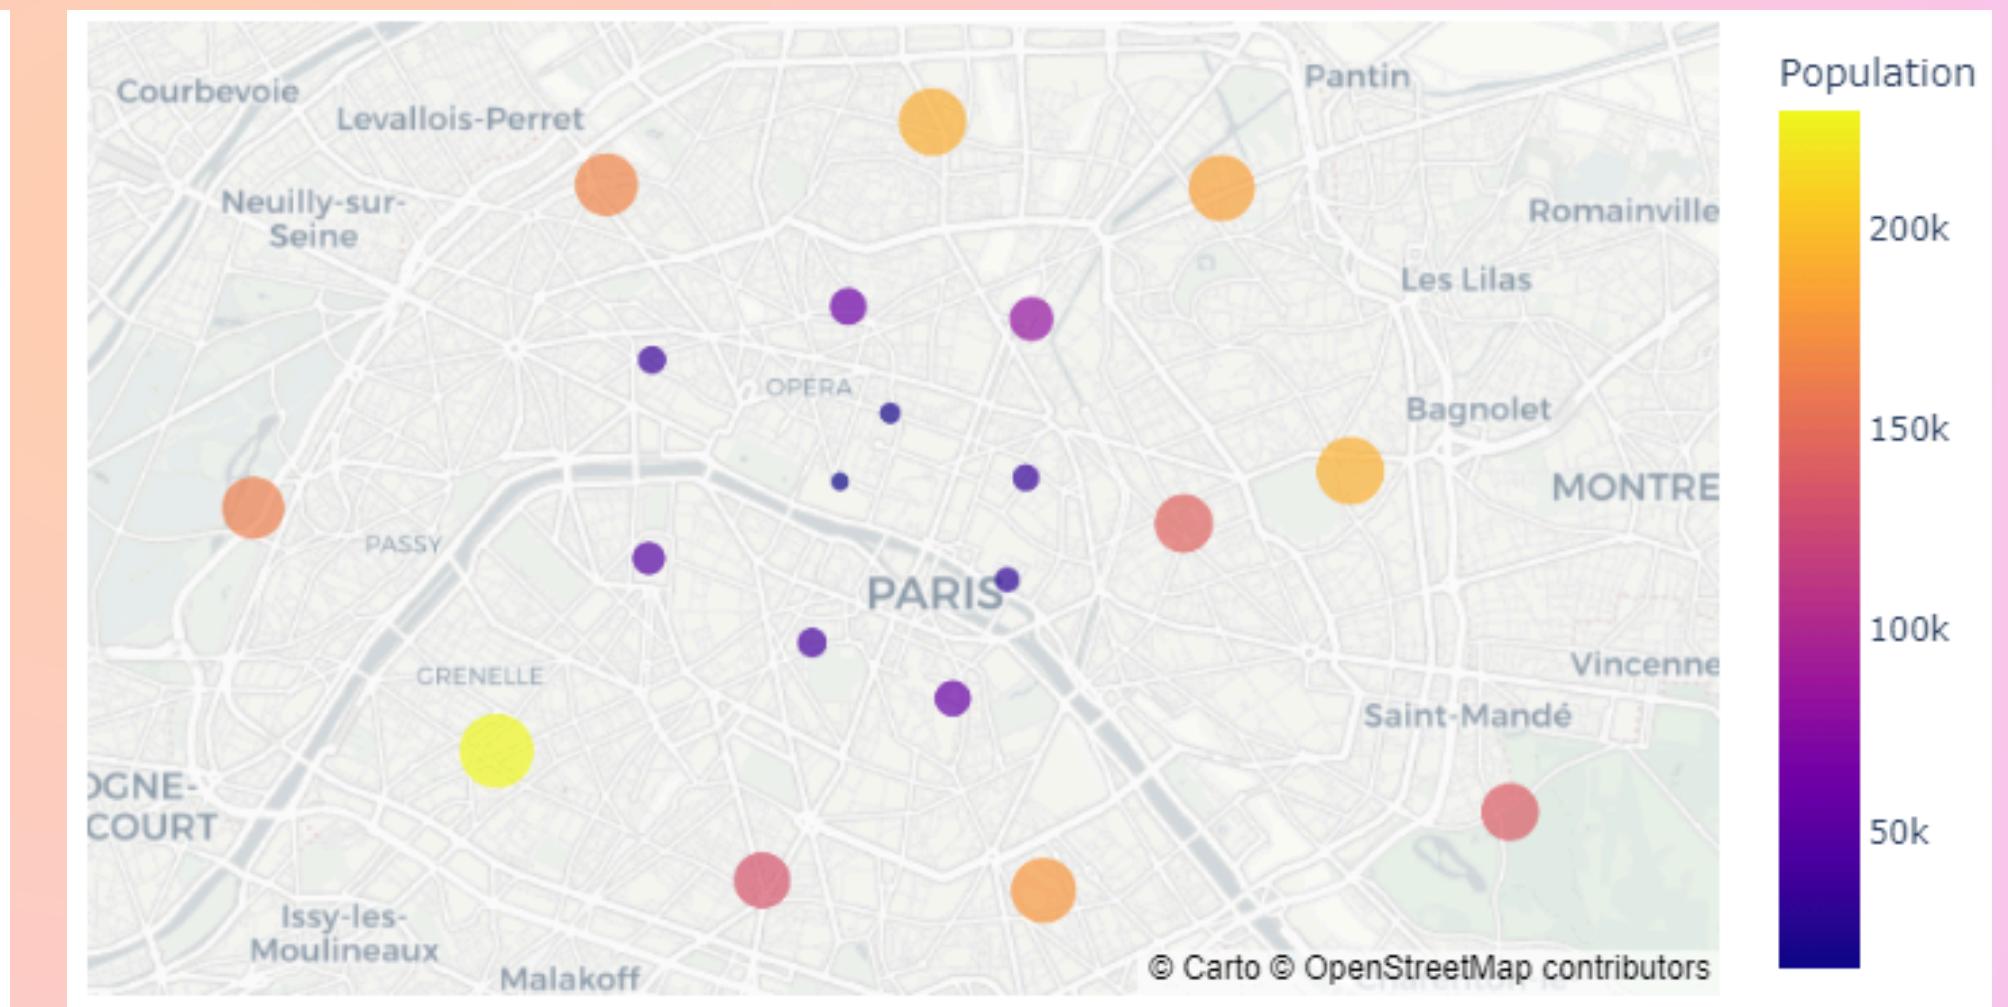

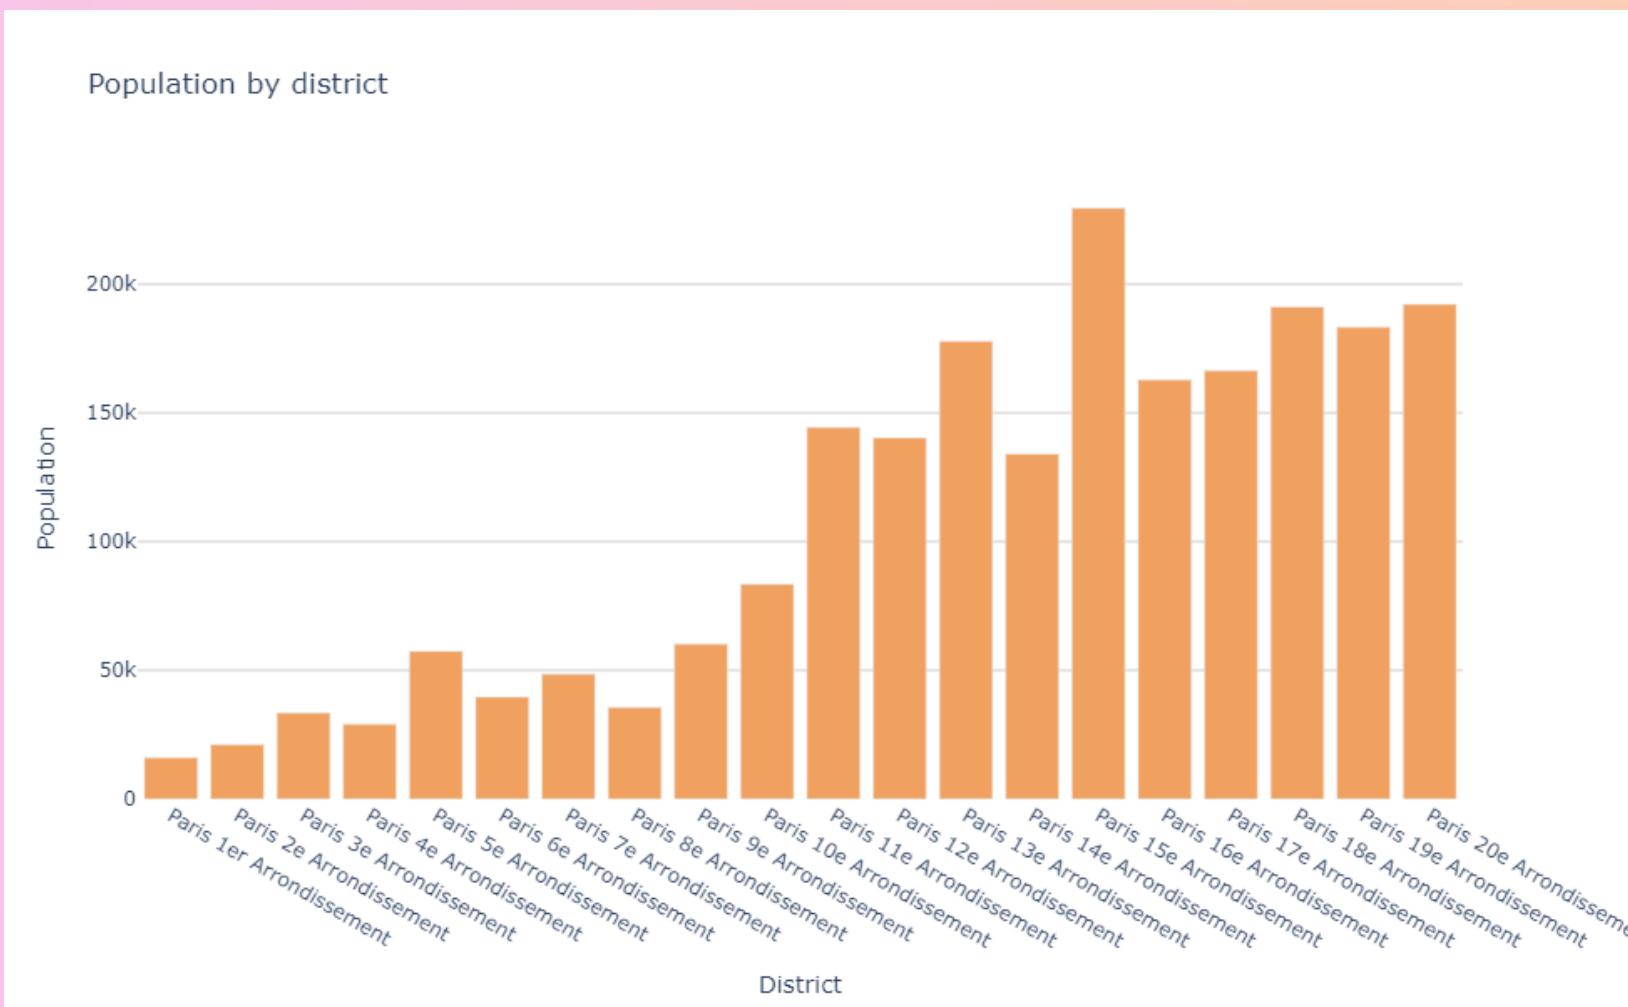

Perception of the city

Oh la la!

Reality of the city: Population distribution

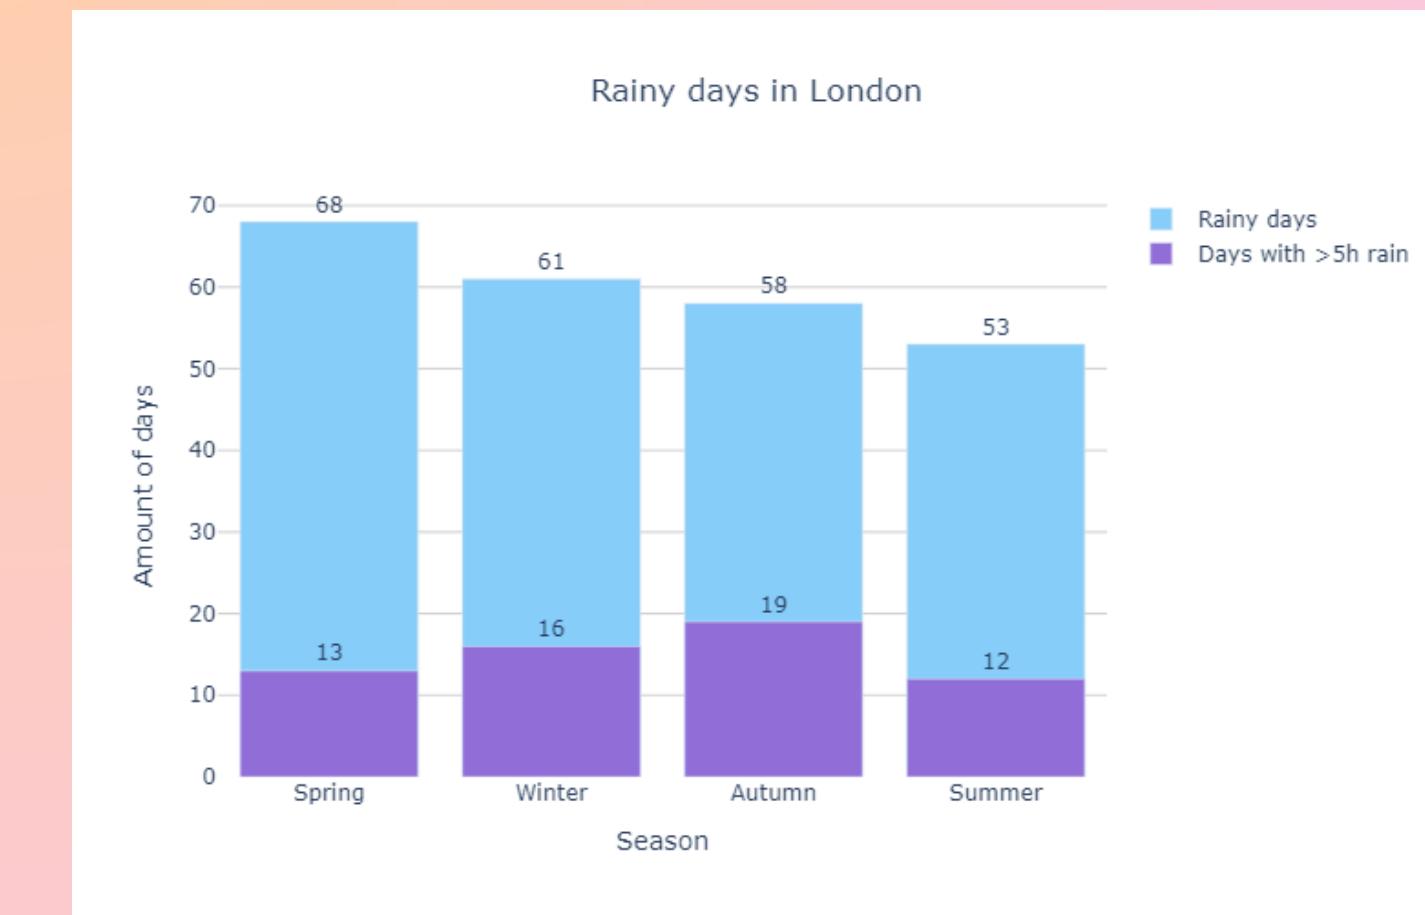

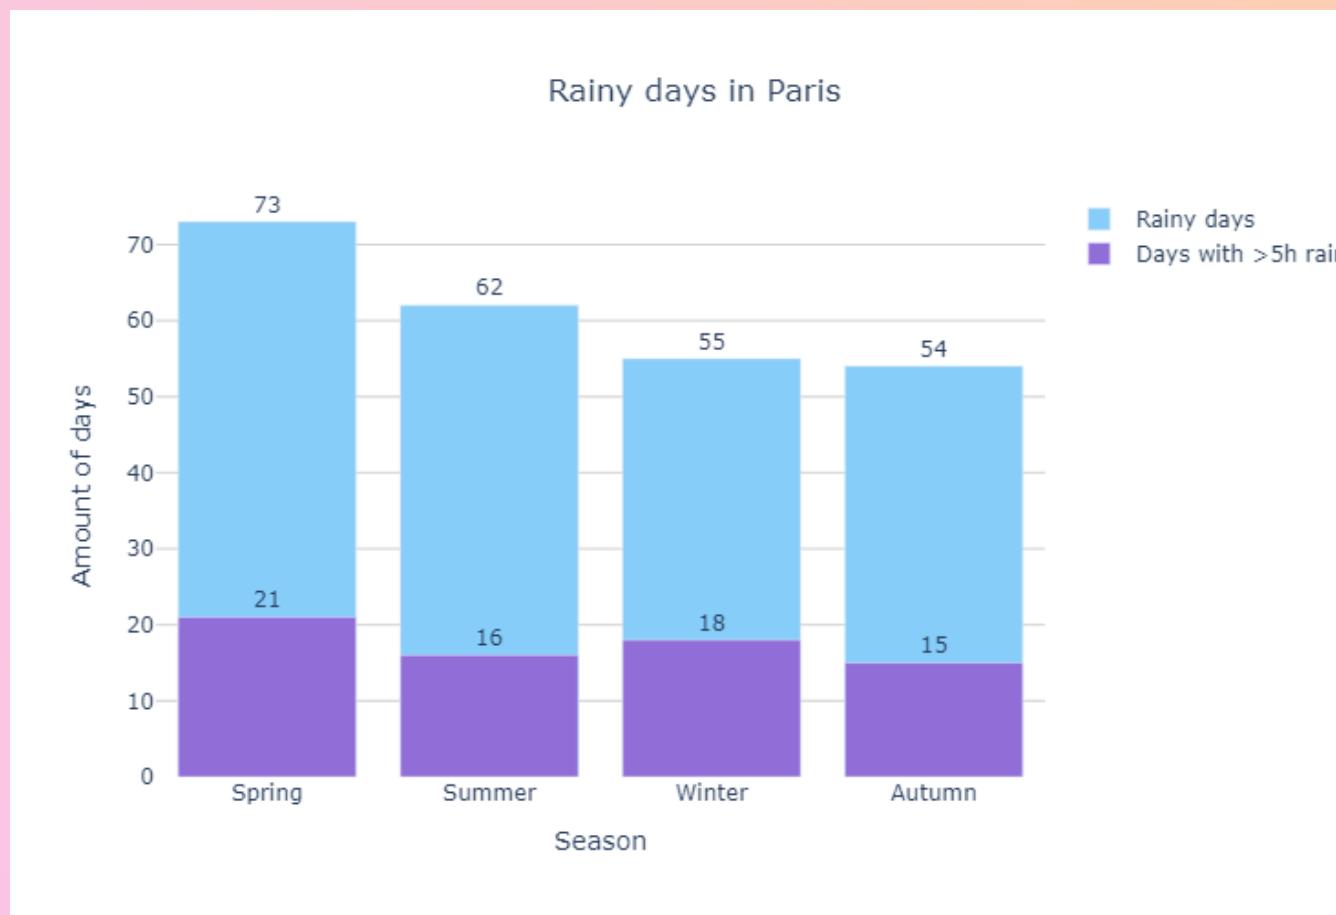

Reality of the city: Weather

In 2024, Paris experienced rainfall on 244 out of 366 days, accounting for approximately 66.67% of the year

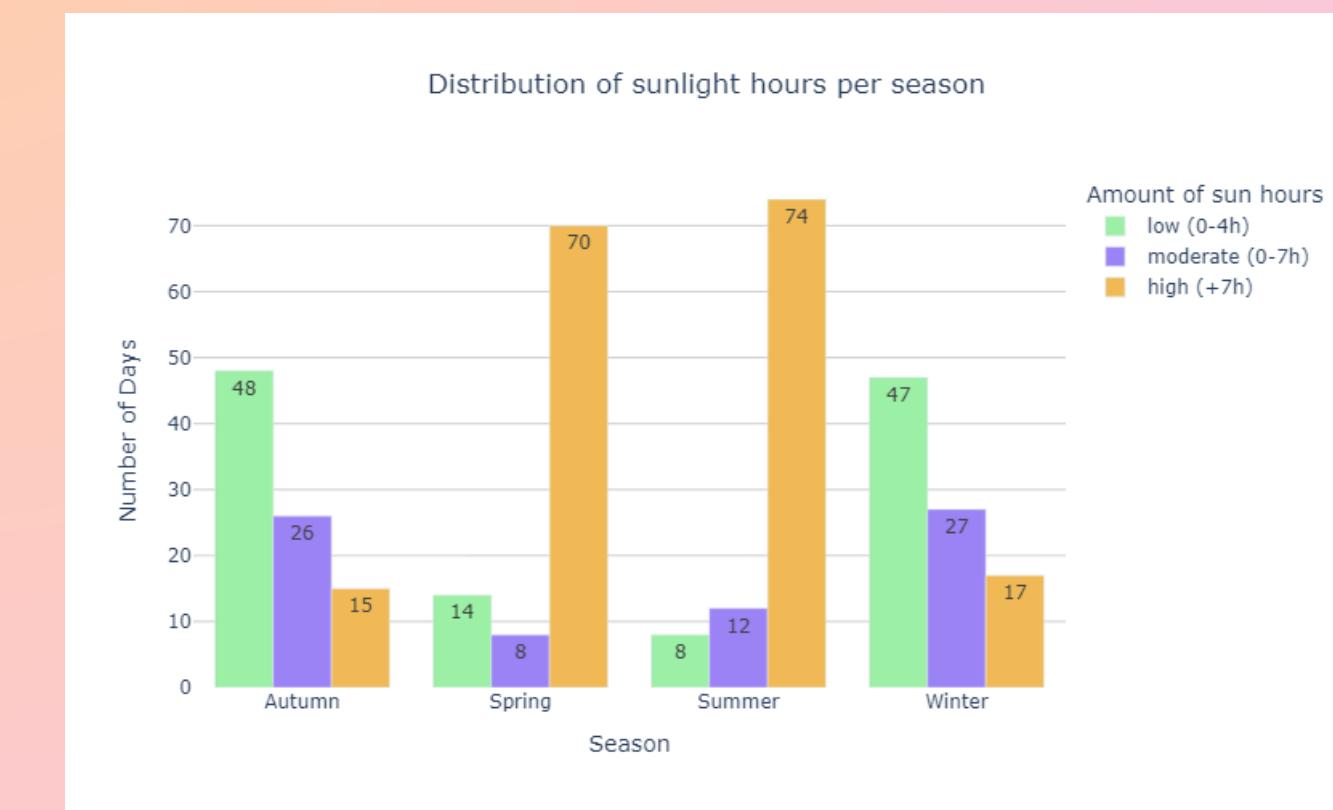

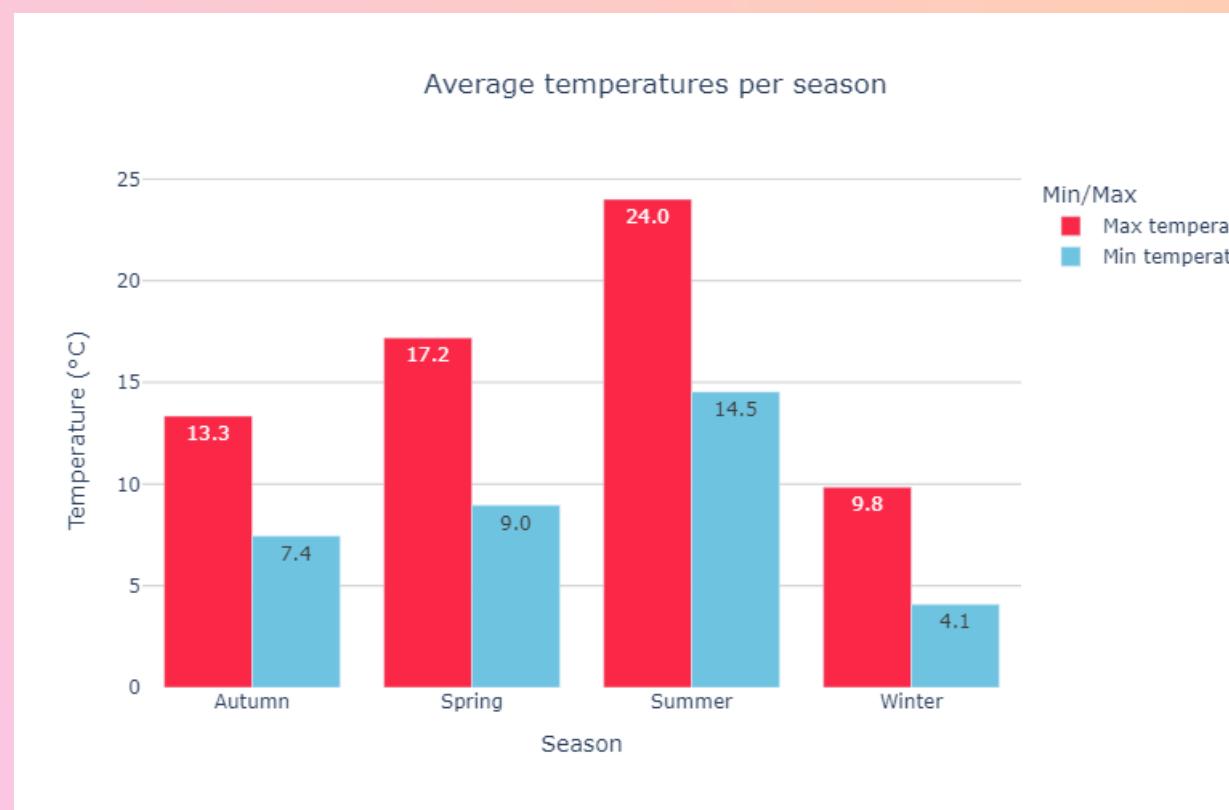

Reality of the city: Weather

Best seasons to visit Paris:

Autumn: Less chances of rain, not too cold

Summer: More sunlight time and better temperatures

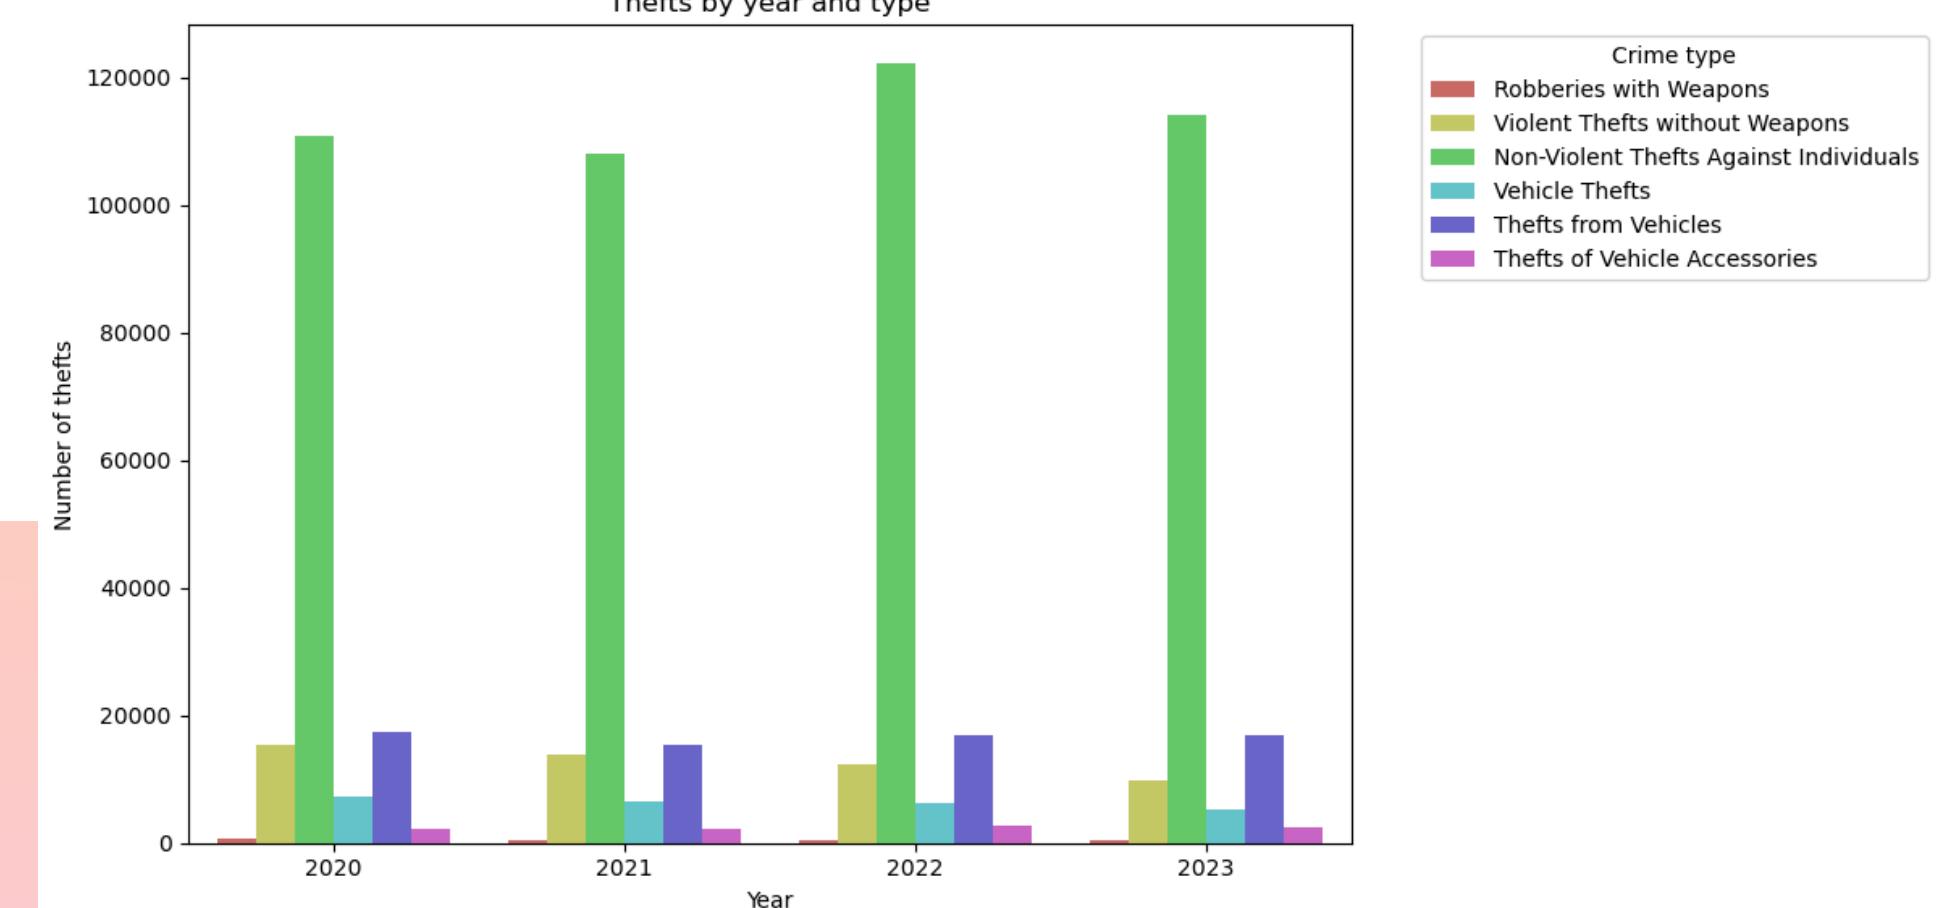

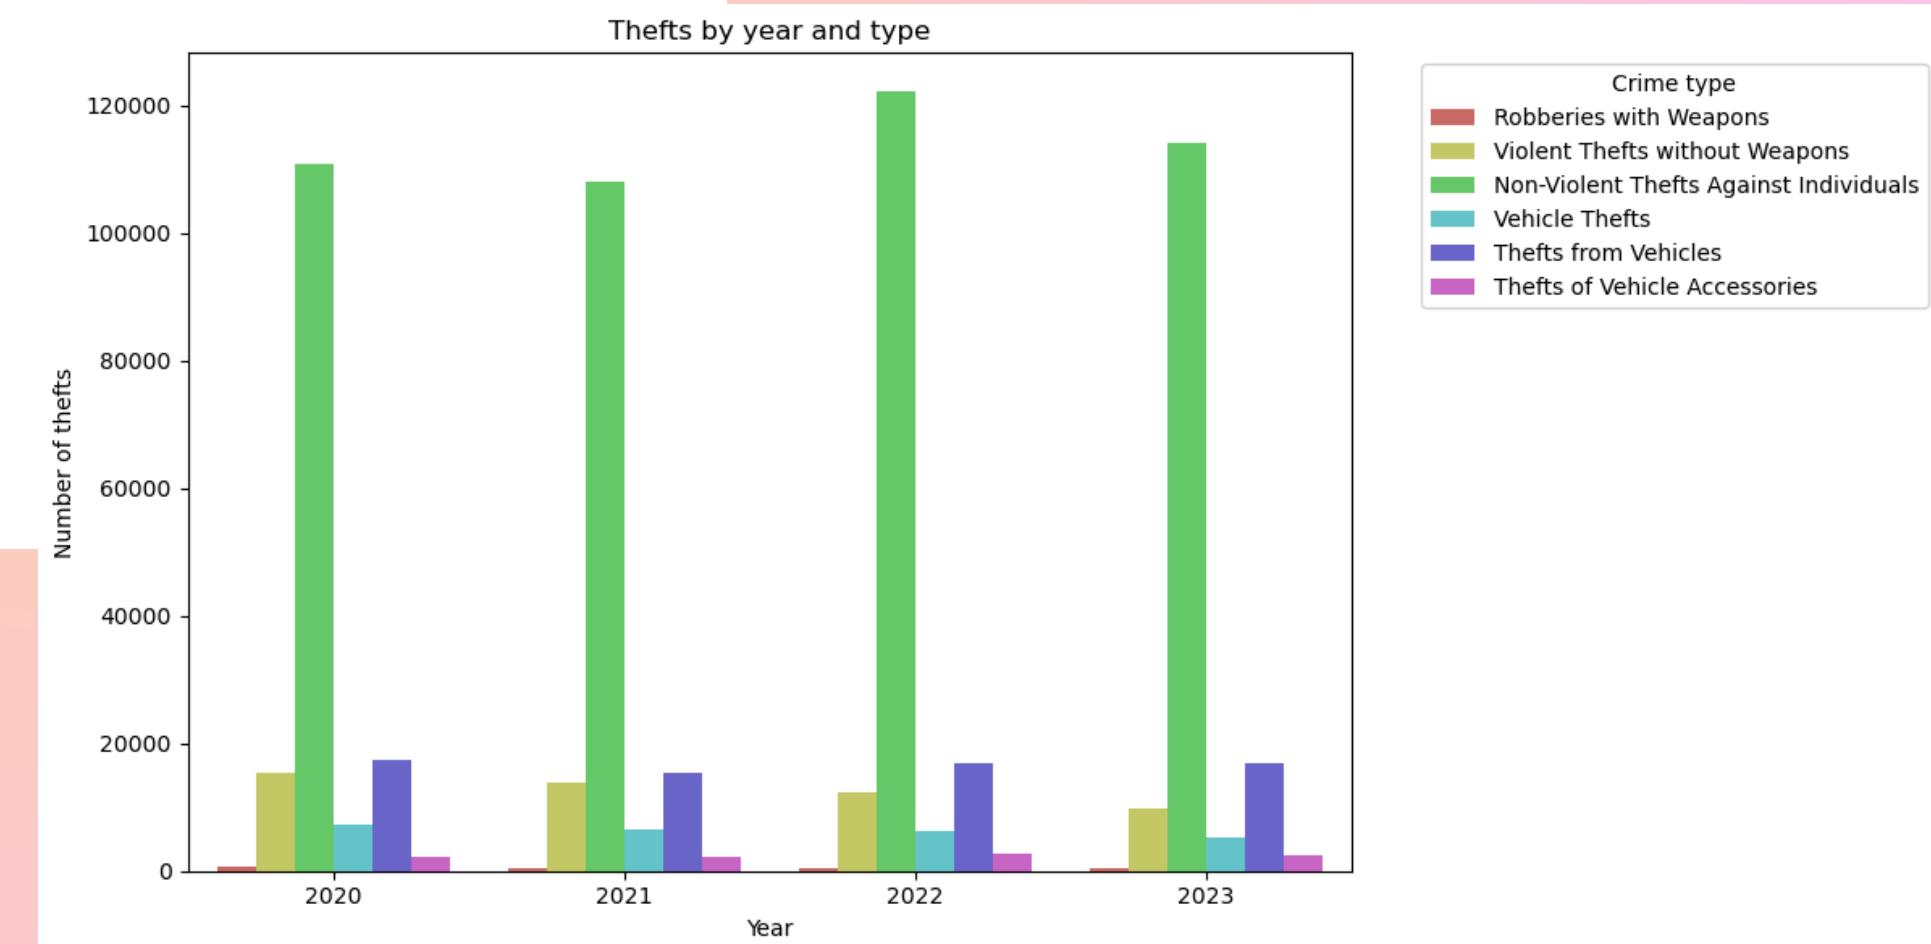

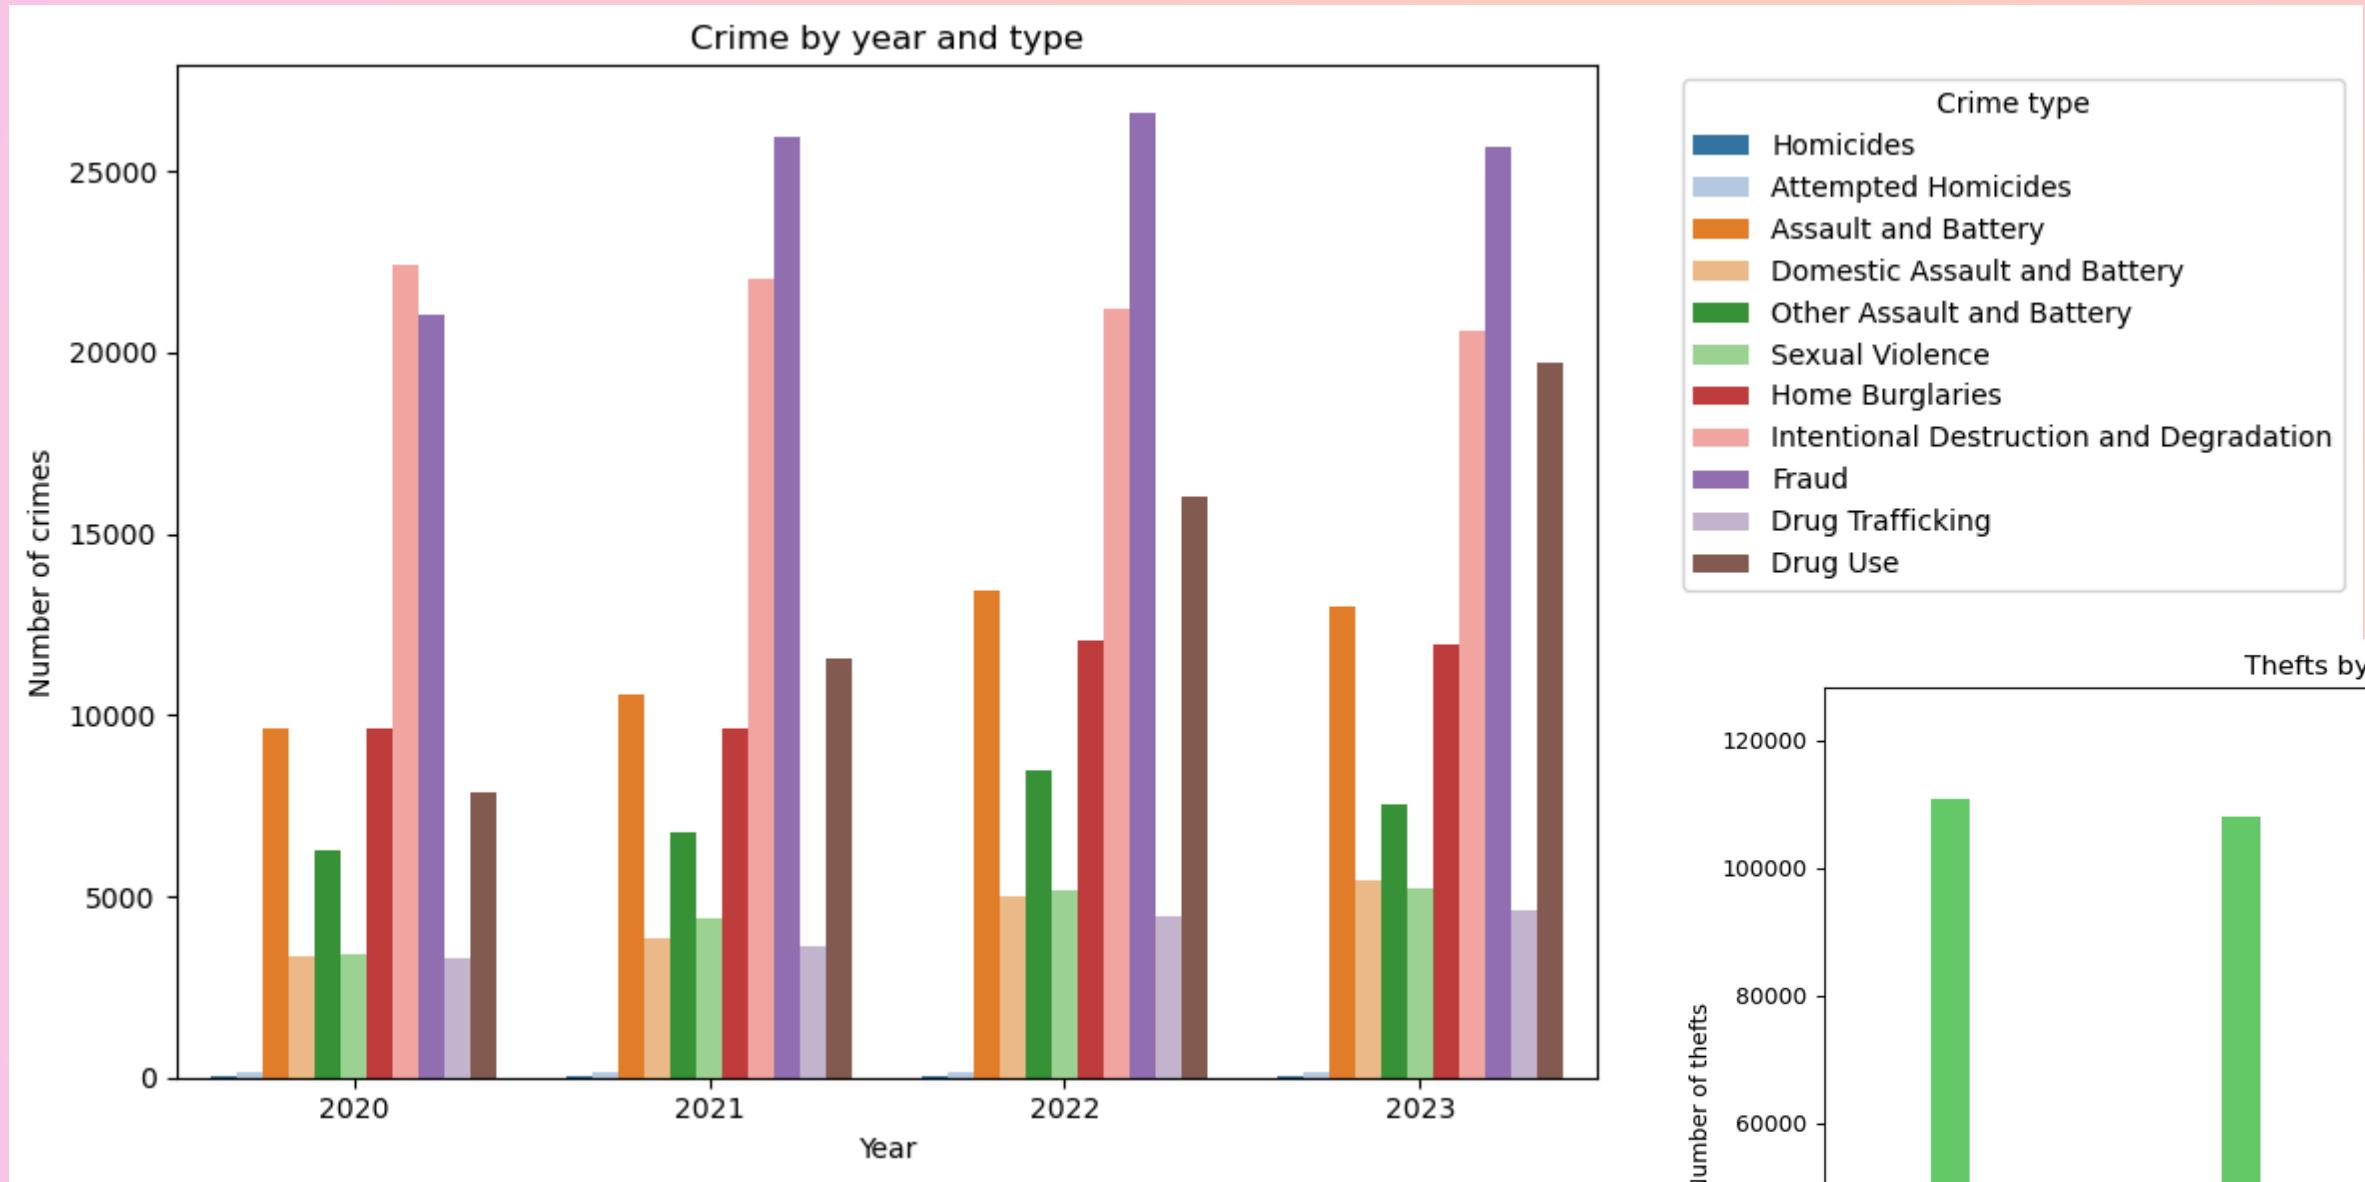

Reality of the city: Safety

The year with the highest number of crimes was 2019, with a total of 315,870 reported crimes

Reality of the city: Safety

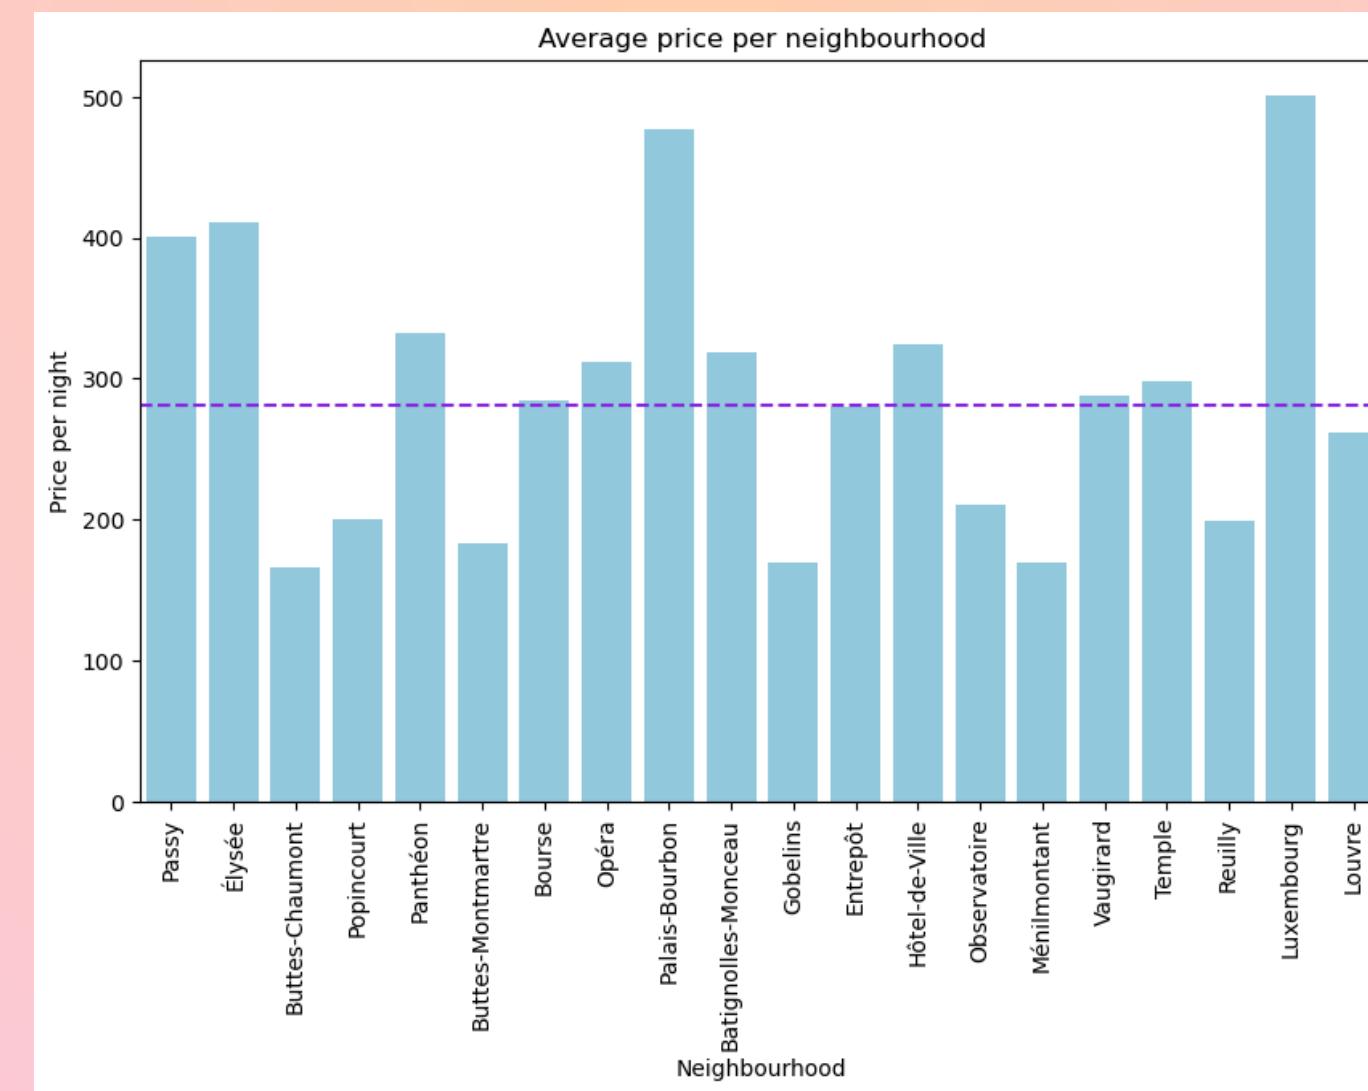

Airbnb data

Total airbnbs in
Paris: 95461

Acceptance rate
 $\geq 99\%$

Review score
 ≥ 5 stars

Our selection:
4715

Hypothesis testing

Hypothesis 1: The price increases when the Airbnb is located near a monument (500 m)

Airbnbs near monuments are significantly more expensive

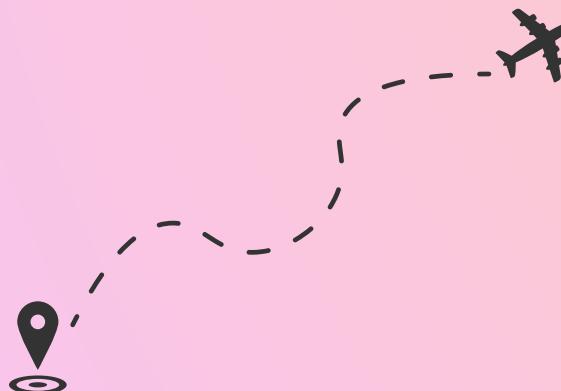

Hypothesis 2: The price increases when the Airbnb is located near a metro station (100 m)

Airbnbs prices do not seem to be affected by the proximity of a metro station
